FIRE STARTERS

From the Past

The Fire Starters Club is inspired by a program CDEA developed in the past that helped new churches purchase their first permanent facility. The program: The Building Sponsors Club.

When a new church entered this phase of life, a letter was sent to every Building Sponsor participant inviting them to send a check for \$25. This money was gathered and given to the church.

Into the Present

The Fire Starters' Club will meet an urgent need that every new church has:

Start Up Supplies

Your Gift Helps Provide:

- Sound Equipment
- Hospitality Supplies
- Children's Ministry Material
- Signage

We are looking for partners willing to give a gift twice a year that will help provide these needs for our new churches.

Your partnership will help "start the fire" as our new churches impact their community through your generosity.

FIRESTARTERS
